PROFESSIONAL SUMMARY

Automotive Design Engineer with **2+ years of experience** across **automobile design, production, automation, and digital twin solutions**. Strong expertise in **3D CAD modeling, plant/vehicle layout design, asset placement, and production support**. Hands-on experience with **industrial robots, PLC basics, and manufacturing environments**. Seeking an **Automotive / Design / Production Engineer** role.

CORE SKILLS

- Automotive & Mechanical Design
- 3D Modeling & 2D Drafting
- Vehicle / Plant Layout Design
- Production & Manufacturing Support
- Digital Twin & Asset Placement
- Industrial Automation Basics

Software & Tools:

UG NX | CATIA V5 | SolidWorks | Creo | Autodesk Inventor | AutoCAD | Navisworks
ABB Robot Programming | Gantry Robots | CNC Lathe Programming

PROFESSIONAL EXPERIENCE

Design Engineer

Actalent, Chennai | Jul 2024 – Present - Developed **3D models and digital twin layouts** representing real-world industrial and automotive assets. - Performed **asset placement and spatial coordination** for plant-level environments. - Executed **2D synchronization of assemblies** to improve layout clarity and manufacturing visualization. - Designed equipment, safety components, and process layouts using **UG NX, AutoCAD, Inventor, and Navisworks**. - Collaborated with cross-functional engineering and production teams to ensure design accuracy.

Automation Engineer

Green Tech Industries, Nellore | *Jul 2023 – Jun 2024* - Installed and commissioned **ABB IRB 2600, IRB 4600, and gantry robots** for production environments. - Programmed robots for optimized motion paths, improving efficiency and cycle time. - Troubleshot robots, sensors, and automation systems to minimize downtime. - Modified basic **PLC logic (GX Works, Delta)** to support production changes. - Supported manufacturing teams to maintain stable and reliable operations.

INTERNSHIPS

Automation Engineer Trainee

Green Tech Industries | *Jan 2023 – Apr 2023* - Assisted in robot installation, programming, and automation system setup.

Service & Maintenance Intern

Varun Motors Pvt. Ltd., Vijayawada | *May 2019 – Oct 2019* - Supported automobile servicing, inspection, diagnostics, and preventive maintenance.

EDUCATION

Bachelor of Technology – Automobile Engineering

Vignan University | 2023 | **CGPA: 8.84**

Diploma – Automobile Engineering

State Board of Technical Education | 2020 | **86.7%**

SSC – AP Board | 2017 | **9.0 GPA**

PROJECTS

Metal Matrix Composite (MMC) Development - Developed MMC using Aluminum 6032 and fly ash via stir casting. - Evaluated tensile strength, hardness, and stress–strain behavior.

Inbuilt Hydraulic Jack for Automobile - Designed an integrated hydraulic jack system for vehicles. - Optimized load capacity, safety mechanisms, and usability.
